

# CURRICULUM VITAE

## Petr Pelnar

Education level: University  
Citizenship: Czech Republic  
Telephone: +420 777 326 156  
E-mail: petr@pelnar.net

**Senior software developer** with strong experience in **.NET** and **Microsoft** platform and background in cybernetics and biomedical engineering  
Great communication skills and fluent in English and Spanish.  
Focused mostly on DB-centric web applications (Angular), Azure services but also desktop (WPF), video processing and streaming.

## Work Experience

### Freelancing SW Development 2014 – now

Various freelancing projects, web and desktop applications for customers in Czech Republic and worldwide. Some of the clients include:

- Medirecord CZ s.r.o. (dev lead; .NET 6/8, WPF, C#, Angular 15, NgRx, WebRTC, GStreamer)
- Retigo s.r.o. (ASP.NET Core MVC, SQL Server)
- 5nine Software Inc. (ASP.NET)
- ATS-TELCOM PRAHA a.s. (WinForms)

### Development lead at Medirecord 2017 – now

**Medirecord develops video management and capture software for hospitals and ambulances.**

Over the past few years, I've served as the development lead, responsible for maintaining code quality, ensuring system stability, and supporting team members in a senior developer role.

I've worked across the entire stack of the system, including:

- WPF desktop application
- MS SQL database
- Angular-based web front end
- WebRTC video streaming
- GStreamer-based video processing pipelines
- Integrations with external systems and HW technologies

The role required me to quickly adopt and master technologies I hadn't previously worked with, as well as troubleshoot and complete unfinished components left by former developers. I successfully led the transition from .NET Framework to .NET 8 while continued to maintain and enhance the system, which

includes a significant legacy codebase.

### Development lead at FanWide Technologies Inc. *January 2016 – 2023*

FanWide is a social network and data platform for sports fans that organizes viewing parties for every team in every city. We are the first service designed to connect millions of sports fans with other supporters of their favorite team at local bars and restaurants that are guaranteed to be featuring their game, no matter where they are located.

My role was the complete architecture design and dev-lead of all applications (back-end + front-end).

### Senior Software Engineer at Certicon a.s. *August 2012 – December 2016*

Architecture design and development of web and desktop applications, database, business services, unit-tests.

#### Projects:

- Development lead of **WPF application** for controlling of **medical device for radiology**. USB communication with Arduino and embedded devices, HW troubleshooting.
- Architecture and design of **telemedicine** application for US customer. **Application server** with RESTful interface for iPhone, ASP.NET MVC4 **website**. Hosted in **Azure**.
- Implementation of IS for The Czech Customs Administration (MS SQL, ASP.NET 3.5, 4.0).

### Senior Software Engineer at Monster Technologies *2010 – 2012*

Software analysis and development of web applications, business services and internal tools. Strong usage of C# and .NET 4.0, jQuery, MS SQL Server 2008.

#### Projects:

- Development of a **portal** for UK Department for Work and Pensions under BPSS security clearance.
- Trovix **search engine integration** into US Department of Veteran Affairs websites:
- Accessibility standards analysis and POC of Monster website according to **WAI-ARIA** definition
- **Monster Government Solutions** projects:

### Web Developer at Mercer Health & Benefits *2010*

Software development of application for benefit administration (web user interface in ASP.NET, database and back-end services development and maintenance). Working in international team. Using technologies MS.NET, C#, MS SQL Server, NHibernate, Aspose, SQL Server Integration Services.

### Software Developer at Active Web Solutions Ltd *2007 - 2009*

Software development and consultancy for English customers mainly. Worked on projects in an international team, daily communication in English, co-operation on projects with Microsoft. Development in C#, ASP, ASP.NET, DB systems (MS SQL), Windows Forms applications, Windows Mobile, Azure, Teletik, XML, XSLT, CSS.

#### Projects:

- **MOB Guardian** ([http://www.rnli.org.uk/mob\\_guardian/](http://www.rnli.org.uk/mob_guardian/)) is a system designed to help save fishermen's lives at sea.

## Education

- Czech Technical University in Prague, Faculty of Electrical Engineering  
Master, Biomedical Engineering, 2000 – 2007  
Master thesis topic: Design and implementation of system for measurement and evaluation of otoacoustic emissions in frequency ranges 1 – 40 kHz.

## Languages

- Czech (Native)
- English (Full professional proficiency)
- Spanish (Full professional proficiency)

## Certifications

- MCTS: .NET Framework 2.0 Web Applications
- MCTS: .NET Framework 3.5 Windows Presentation Foundation Applications
- Certificate in Advanced English (CAE)
